Contra Costa Transportation Authority’s Connected Vehicle/ Autonomous Vehicle (CV/AV) Summit
A Message from Executive Director Randell Iwasaki

Dear Friends,

Thank you for joining us at the Redefining Mobility Summit and the unveiling of the groundbreaking GoMentum Station connected and autonomous vehicle (CV/AV) program. We are excited to convene this Summit of industry and thought leaders to discuss the state of the art automotive technologies that will take place right here in Contra Costa County.

On behalf of the Contra Costa Transportation Authority (CCTA) staff and our Board of Commissioners, along with GoMentum Station’s industry partners, I could not be more proud of our work to redefine transportation technology and the opportunity to create new and innovative jobs in our community.

As the largest secure test facility in the U.S., GoMentum Station will put Contra Costa and the Bay Area squarely at the center of the transportation technology revolution. We are excited to leverage our partners’ resources and assist them in incubating transportation solutions that will address today’s most challenging mobility concerns. At GoMentum Station we’re going to see technology, innovation and commercialization converge to define the next generation of transportation network infrastructure.

Since CCTA was formed in 1988, our agency’s goal has been to implement a balanced transportation plan that creates an important link between plans for growth and development in Contra Costa County with accompanying transportation planning and projects. It may be hard to believe, but this was a revolutionary concept 25 years ago! The decision to invest in our local transportation system has paid off in dividends, and benefits residents across the county. But we know there is still more to do, and particularly as new technology continues to emerge, we look forward to harnessing these innovations to improve safety and help keep our county moving.

Here at CCTA—especially as we unveil GoMentum Station—we are excited to see what the next 25 years will bring, and look forward to working together to plan our transportation future. Stay in touch with us at ccta.net and find more information about GoMentum Station at gomentumstation.net.

Randell H. Iwasaki, P.E.
Executive Director | Contra Costa Transportation Authority
agenda

7:30am–8:30am | Registration, Breakfast

8:30am–8:40am | Welcoming Remarks
City of Concord, Mayor Timothy Grayson
Contra Costa Transportation Authority, Chair Julie Pierce

8:40am–9:05am | Keynote Speaker:
California Transportation Commission (CTC) Commissioner James Madaffer

9:05am–10:00am | National Vision for a Connected Future
- Moderator: Contra Costa Transportation Authority Chair, Julie Pierce
- American Association of State Highway & Transportation Officials (AASHTO) Director of Engineering & Technical Services, King Gee
- U.S. Department of Transportation Intelligent Transportation Systems Joint Program Office (ITS JPO) Director, Kenneth Leonard
- ITS America Interim President & CEO, Thomas Kern
- Telecommunications Industry Association CEO, Scott Belcher
- Global Automakers President CEO, John Bozzella

10:00am–10:15am | BREAK

10:15am–11:30am | Redefining Mobility: The GoMentum Station Program
- Opening Remarks: Assemblywoman, Susan A. Bonilla (D-Concord)
- Contra Costa Transportation Authority Executive Director, Randy Iwasaki
- City of Concord Local Reuse Authority Executive Director, Michael Wright
- Stantec Senior Principal, Transportation Technologies, Arya Rohani
- Contra Costa Transportation Authority ITS CV/AV Program Manager, Jack Hall
- Contra Costa Economic Partnership Executive Director, Kristin Connelly

11:30am–Noon | BREAK

Noon–1:30pm | LUNCH
Creating Change: How Technology is Reshaping the Transportation Industry
- Moderator: Contra Costa Transportation Authority Deputy Executive Director for Projects, Ross Chittenden
- Honda Research Institute Senior Engineer, Joseph Whinnery
- Allstate Insurance Company Connected Car Director, Joy Thomas
- California Polytechnic State University San Luis Obispo Professor, Dr. Robert Bertini
- Cisco Systems, Smart Connected Vehicles Director, Andreas Mai

1:30pm–1:45pm | BREAK

1:45pm–3:00pm | Connecting Our Communities: How Technology is Transforming the Neighborhood
- Moderator: Supervisor Karen Mitchoff, District IV, Contra Costa County
- Governor’s Office of Business & Economic Development Director, Kish Rajan
- Prospect Silicon Valley Executive Director, Doug Davenport
- ARUP Director for Global Foresight, Research & Innovation, Dr. Chris Luebkeman

3:00pm | Closing Remarks

Workshop Conclusion
Regional Leadership Forum
MONTEREY HILTON | APRIL 8-10
Hosted by CalCOG

Keeping Contra Costa Moving!

The Contra Costa Transportation Authority (CCTA) is a public agency formed by Contra Costa voters in 1988 to manage the county’s transportation sales tax program and oversee the delivery of a $1 billion transportation and growth management program. In 2004, voters extended the transportation sales tax for an additional 25 years—a testament to CCTA’s successful delivery of the original sales tax expenditure plan. This generated an additional $2.7 billion to spend on the county’s transportation system.

CCTA is responsible for planning, funding and delivering critical transportation infrastructure projects and programs that connect our communities, foster a strong economy, increase sustainability, and safely and efficiently get people where they need to go. CCTA also serves as the county’s designated Congestion Management Agency, responsible for putting programs in place to keep traffic levels manageable.

As a transportation leader, CCTA is working to create a stronger economic future for Contra Costa County by building partnerships that make transportation safer, more reliable and increasingly efficient. Rather than exclusively trying to “build our way” out of congestion, CCTA’s vision centers around the use of emerging technologies and public-private partnerships to meet transportation demands and reduce greenhouse gas emissions in Contra Costa.

More information about CCTA’s work across Contra Costa can be found online at ccta.net.

Working to create a STRONGER economic future for Contra Costa

GoMentum Station in Concord, California is where the Contra Costa Transportation Authority leads and facilitates a collaborative partnership among multiple automobile manufacturers; original equipment manufacturers and Tier 1 suppliers; communications suppliers; technology companies; researchers and academia; public agencies and other partners. These entities converge in research development, testing validation and commercialization of Connected Vehicle (CV) applications and Autonomous Vehicles (AV) technologies to define the next generation of transportation network infrastructure. The 5,000-acre former navy weapons station, featuring 20 miles of paved roadway, is the largest secure test facility in the U.S. and will become the center of CV/AV research.

More information about GoMentum Station’s programs and partnership opportunities is available at gomentumstation.net.
Concord Welcomes GoMentum Station

Concord offers Entrepreneurs, Advanced Manufacturing and Fortune 500 Companies Room to Grow and Thrive

**PART 2**

**EAST BAY ECONOMIC FORECAST AND INFRASTRUCTURE PANEL**

> Thursday, April 16, 2015

8:00 a.m. to 10:00 a.m.

Hilton Concord

1970 Diamond Blvd., Concord

Chris Thornberg of Beacon Economics begins with an updated forecast of the state, regional and East Bay economies. A panel discussion will follow, with Randy Iwasaki, executive director of the Contra Costa Transportation Authority and Art Dao, executive director of the Alameda County Transportation Commission, about the region’s infrastructure and transportation priorities. Learn about the link between a healthy economy and infrastructure investment, as well as the role technology can play in improving mobility, including movement of goods and services.

---

**PART 3**

**PREPARING FOR THE FUTURE OF HEALTHCARE IN THE EAST BAY AND BEYOND**

The series concludes with an in-depth panel discussion and luncheon on the ways that increased government financing of healthcare will impact the healthcare workforce needs and the delivery of care.

**ATTEND APRIL 16 EVENT ONLY**

Members & Elected Officials $50  
Non-members $75

**ATTEND BOTH EVENTS**

Members & Elected Officials $90  
Non-members $140
