The image contains three sections: Daily returns, Weekly returns, and Monthly returns. Each section includes graphs of the Autocorrelation Function (ACF) for different types of returns:

- **Daily returns**: Squared daily returns, Absolute daily returns
- **Weekly returns**: Squared weekly returns, Absolute weekly returns
- **Monthly returns**: Squared monthly returns, Absolute monthly returns

The ACF graphs are plotted against lag, with the x-axis showing lag values (0 to 30) and the y-axis showing the autocorrelation value (0 to 0.8).
